

# [SPAZI COMUNI]

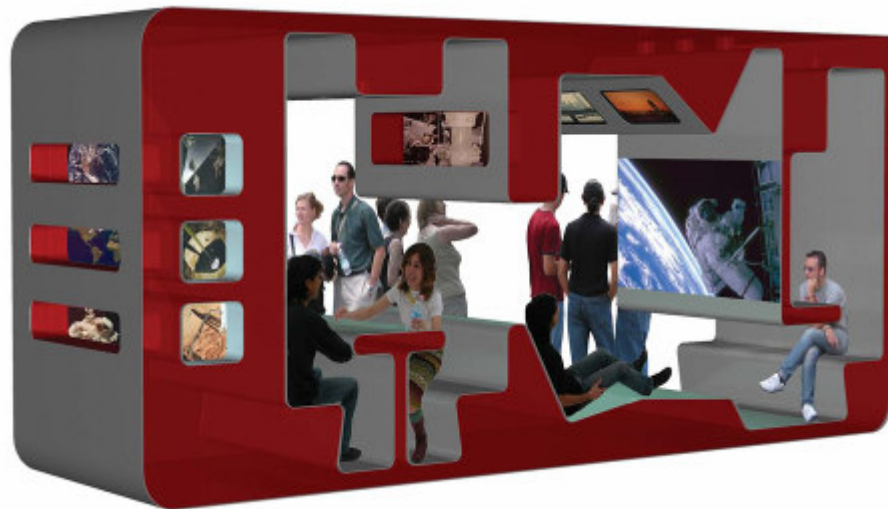

Research & Development Centre

**Dev. projects 2009**

**Spazi Comuni** is a development and research centre born in Rome in 2006, but has already operating as laboratory since 2005. Its mission is to put together professionals and researchers, in order to develop projects concerning socioeconomic and cultural revaluation of public areas..

## ART BOX CITY

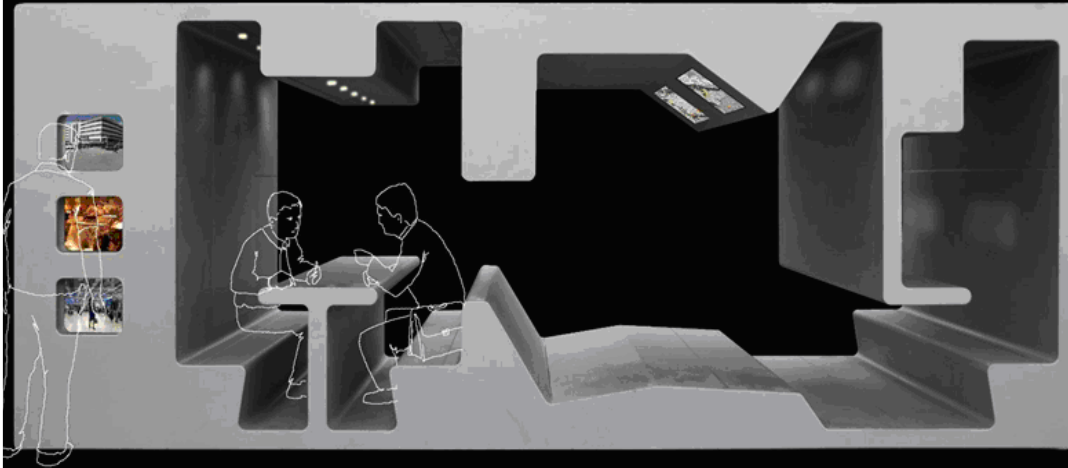

Is a platform for Communication and Research Activity for Events and Conferences companies.

Art Box City combines information technology and industrial design. A box made of stainless steel, with openings along its length, dimension (6,00m \* 2,40m\* 2,40m). ABC is entirely assembled in the factory and can be easily transported.

The box can operate both for indoor and outdoor events.

## AMBIENTI ARTBOXCITY

The box is divided in three main areas planned for three different activities, the atmosphere is created by multicolor led lamp, monitor touch (9 di 19' + 2 di 32') and high quality audio system

**The Art Box City** is powered by SW\_ABC\_1 software for communication and research activity.

## SW\_ABC\_1 SOFTWARE

**SW\_ABC\_1** was designed to satisfy communication and research needs for private and public Companies.

The software can operate on every kind of hardware platform, and delivers different types of contents and format: from art exhibition, photo reportage, high definition videos and other kinds of documents you need to advertise.
